7E	Lipstick		
9A-9C	Oral Hygiene Products		
10A, 10C-10E	Personal Cleanliness, except Deodorants		
	<u>Baby Products</u>		
1A-1C	Baby Products		

1. Because each ingredient may be used in cosmetics with multiple exposure types, the sum of all exposure types may not equal the sum of total uses.

2. It is possible these products may be sprays, but it is not specified whether the reported uses are sprays.

3. Not specified whether a powder or a spray, so this information is captured for both categories of incidental inhalation.
