

Quick Reference Table

Ingredient Name	Finding†	Detail	Citation‡
2,3-Naphthalenediol	Z		JACT 7(3):353-57, 1988
4-Amino-2-Nitrophenol	Z		IJT 28(S3): 217-251, 2009
4-Chloro-2-Aminophenol	SQ:Z	as used in oxidative hair dyes available data are insufficient to support the safety in non-oxidative hair dyes	IJT 23(S2):1-22, 2004
Acacia Catechu Gum	Z		IJT 24(S3):75-118, 2005
Acacia Dealbata Leaf Extract	Z		IJT 24(S3):75-118, 2005
Acacia Dealbata Leaf Wax	Z		IJT 24(S3):75-118, 2005
Acacia Farnesiana Gum	Z		IJT 24(S3):75-118, 2005
Adipic Acid Dihydrazide	Z		JACT 13(3):154-6, 1994
Aloe Andongensis Extract	Z		IJT 26(S2):1-50, 2007
Aloe Andongensis Leaf Juice	Z		IJT 26(S2):1-50, 2007
Aloe Ferox Leaf Juice	Z		IJT 26(S2):1-50, 2007
Aloe Ferox Leaf Juice Extract	Z		IJT 26(S2):1-50, 2007
Avena Sativa (Oat) Meristem Cell Extract	Z	safe in cosmetics in the present practices of use and concentration described in this safety assessment when formulated to be non-sensitizing	Final report 12/2014 available from CIR
Basic Violet 1	Z		IJT 28(S3):193-204, 2009
Basic Violet 3	Z		IJT 28(S3):193-204, 2009
Basic Violet 4	Z		IJT 28(S3):193-204, 2009
Benzoxiquine	Z		IJT 16(S1):117- 22,1997
Brucine (denaturant)	Z		IJT 27 (S1):1-43, 2008
Camellia Sinensis Flower Extract	Z		Final report 09/2014 available from CIR
Camellia Sinensis Flower/Leaf/Stem Juice	Z		Final report 09/2014 available from CIR
Camellia Sinensis Root Extract	Z		Final report 09/2014 available from CIR
Camellia Sinensis Seed Extract	Z		Final report 09/2014 available from CIR
Camellia Sinensis Seed Powder	Z		Final report 09/2014 available from CIR
Camellia Sinensis Seedcoat Powder	Z		Final report 09/2014 available from CIR
Chlorophene	Z		IJT 23(S1):1-27 2004
Corylus Americana (Hazelnut) Leaf Extract	Z		IJT 20(S1):15-20, 2001
Corylus Americana (Hazelnut) Seed Extract	Z		IJT 20(S1):15-20, 2001
Corylus Avellana (Hazelnut) Seed Extract	Z		IJT 20(S1):15-20, 2001
Corylus Rostrata (Hazelnut) Leaf Extract	Z		IJT 20(S1):15-20, 2001
Corylus Rostrata (Hazelnut) Seed Extract	Z		IJT 20(S1):15-20, 2001
<i>p</i> -Cresol	Z		IJT 25(S1):29-127, 2006
Di- <i>t</i> -Butylhydroquinone	Z		JACT 15(4):311-9, 1996
Dichlorophene	Z		IJT 23(S1):1-27 2004
Disperse Blue 7	Z		IJT 26(S2):65-77, 2007
Disperse Yellow 3	Z		JACT 15(4):301-10, 1996
Glucose Glutamate	Z		IJT 19(S1):11-12, 2000
Human Placental Enzymes	Z	if used, should not deliver any metabolic/ endocrine activity, and they must be free of detectable pathogenic viruses or infectious agents	IJT 21(S1):81-91, 2002
Human Placental Lipids	Z	if used, should not deliver any metabolic/ endocrine activity, and they must be free of detectable pathogenic viruses or infectious agents	IJT 21(S1):81-91, 2002
Human Umbilical Extract	Z	if used, should not deliver any metabolic/ endocrine activity, and they must be free of detectable pathogenic viruses or infectious agents	IJT 21(S1):81-91, 2002
Hydrolyzed Camellia Sinensis Seed Extract	Z		Final report 09/2014 available from CIR
Hydrolyzed Carrageenan	Z		Final report 09/2015 available from CIR

Quick Reference Table

Ingredient Name	Finding†	Detail	Citation‡
Hydrolyzed Human Placental Protein	Z		IJT 21(S1):81-91, 2002
Juniperus Oxycedrus Fruit Extract	Z		IJT 20(S2):41-56, 2001
Juniperus Phoenicea Gum Extract	Z		IJT 20(S2):41-56, 2001
Lauramine	Z		JACT 14(3):196-203, 1995
MEA-Hydrolyzed Silk	Z		Final report 12/2015 available from CIR
Mixed Cresols	Z		IJT 25(S1):29-127, 2006
PPG-40 Diethylmonium Chloride	Z		IJT 18(S3):57-59, 1999
Peanut (Arachis Hypogaea) Flour	Z		IJT 20(S2):65-77, 2001
Pentaerythrityl Rosinate	Z		JACT 13(5):395-399, 1994; IJT 17(S4):83-94, 1998
Phloroglucinol	Z		JACT 14(6):468-75, 1995
Piper Methysticum Root Extract	Z		IJT 28(S2): 175-188, 2009
Polyoxymethylene Melamine (formerly Melamine/Formaldehyde Resin)	Z		JACT 14(5):373-85, 1995
Potassium Chlorate	Z		JACT 14(3):221-30, 1995
Quassin	Z		IJT 27 (S1):1-43, 2008
SD Alcohol 39	Z		IJT 27 (S1):1-43, 2008
Sodium Iodate	Z		JACT 14(3):231-39, 1995
Sodium Lauraminopropionate	Z		IJT 16(S1):1-10,1997
Sodium- <i>m</i> -Nitrobenzenesulfonate	Z		JACT 15(4):337-47, 1996
Stearamide DIBA-Stearate	Z		IJT 20(S3):91-97, 2001
Stearic Hydrazide	Z		JACT 10(1):99-101, 1991
Toluene-3,4-Diamine	Z		JACT 11(4):423-45, 1992 (original report); IJT 29(S2):61-83, 2010
Umbilical Extract	Z	if used, should not deliver any metabolic/ endocrine activity, and they must be free of detectable pathogenic viruses or infectious agents	IJT 21(S1):81-91, 2002
Urocanic Acid	Z		JACT 14(5):386-423, 1995

†S - safe in the present practices of use and concentration SQ - safe for use in cosmetics, with qualifications I - the available data are insufficient to support safety Z - the available data are insufficient to support safety, but the ingredient is not used U - the ingredient is unsafe for use in cosmetics UNS - ingredients for which the data are insufficient and their use in cosmetics is not supported
